MEMORANDUM FOR THE RECORD

SUBJECT: Will Garvey - *encl*

1. Will Garvey, who met the DCI in Puerto Rico, came to the Administration Building on 26 April 1961 and talked to the undersigned.

2. In addition to his other activities, which are of Garvey plans to establish a new publication in Washington. He describes it as the Washington Economist to be published five days a week.

3. Garvey has no paper prospectus. He says this hinders his flexibility and control. He has lined up printing facilities, is still enlisting financial backing, and is looking for a managing editor.

4. Garvey is dynamic, but almost inarticulate. He will be back in Washington for a brief visit at the end of May, and then for the summer from about 5 June until September.

5. He says he is interested in publishing cheap books, too.
